REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does not teach the process as claimed for forming filling material; useful for quilts and pillows or the mixture of down and lyocell useful as filling material.

Eichinger et al. "Lenzing Lyocell Fill Filling Fiber for Bedding" disclose the use of lyocell filling material which for bedding. They suggest its mixture with polyester filling material. They do not teach or suggest the mixture of lyocell with down or the steps of preparing said mixture as claimed. Lyocell is a solvent spun cellulosic material. Down is natural feather material used for filling material. The mixture of lyocell with polyester, which is a synthetic material, does not render obvious the mixture of lyocell with down, or natural feathers.

Lenzing, WO 2004/023943, which is not available as prior art discloses a quilt comprising lyocell filling fibers. They compare the lyocell filling to down filling in Table III. In Tables I and II they disclose lyocell/polyester fill and in Table I said filling is compared to down. There is no suggestion to combine down feather filling with synthetic lyocell. Accordingly the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
